

Earn \$1/kWh on the VPP

Powow pays a fixed premium rate for your battery exports, ensuring consistent and reliable earnings!

Join our VPP today and experience the freedom of retailer independence, ensuring you're never tied down to a single energy plan. Our VPP makes your solar battery investment more profitable, offering you greater savings and flexibility.

Why join the Powow Virtual Power Plant?

Unlock the potential of your solar investment with our VPP, offering unmatched savings and unparalleled flexibility:

- Enjoy the freedom to choose any electricity provider you like. With no lock-in energy plans, you can switch providers whenever you want without any hassle.
- Benefit from up to \$300 in extra savings per year through VPP payments, making a battery a smarter financial choice than ever before.
- Our VPP is straightforward. Anytime Powow discharges power from your battery, you receive a fixed, premium rate of \$1/kWh.

Joining our VPP maximises your savings, offers unmatched flexibility and ensures faster returns on your solar investment. Enjoy freedom from lock-in plans and transparent earnings.

Join the Powow VPP today and start saving more!

T&C's apply (Installation must include the following equipment - Hinen inverter + Powow meter)
